

Chemistry Teacher

Trinity is seeking a full-time instructor for chemistry to begin work in the 2022-2023 school year. A BS in Chemistry and teaching experience are required.

The ideal candidate communicates to students a deep curiosity about science and inspires exploration into the core disciplines connecting students to real world applications. The instructor will teach chemistry to high school students at the advanced level for IB Higher Level Chemistry, and preferably have experience with teaching in the International Baccalaureate (IB) Diploma Programme. The teacher will develop student skills in scientific inquiry and laboratory practice as well as mastery of content. The teacher will actively use a variety of instructional strategies to engage students' critical thinking, including the innovative use of technology. Experience with modeling instruction is a plus.

As an IB World school, Trinity is dedicated to supporting a culturally diverse faculty and staff. The school welcomes inquiries from candidates who will contribute to a community where all are valued.

To be successful, colleagues will have a strong personal commitment to Trinity's mission and philosophy, seeking to challenge our students to discover their paths, develop their talents and strengthen their character within a dynamic academic community.

Interested candidates should submit electronic copies of resume and cover letter to Lee Sprague, Associate Head of School, at lsprague@trinityes.org. Additionally, send (email or mail) copies of transcripts of all undergraduate and graduate coursework.

Trinity Episcopal School does not discriminate on the basis of race, color, religion, gender, sexual orientation or national origin in the administration of its educational, admission or employment policies, scholarship and financial aid policies or any other programs administered by the school.
